The Middlesex Therapeutic Community Residence (MTCR) was constructed as a temporary 7-bed facility in response to Tropical Storm Irene. The current facility is in dire need of replacement and is well beyond its useful life. The proposed replacement facility will be a 16-bed, state owned facility in central Vermont. FY 2020 funds are requested to allow AHS and BGS to locate property where a new facility could be built in central Vermont, to evaluate the property, and acquire a suitable site. The funds will also be used to begin the design and permitting process. FY 2021 funds will be used to complete the design process, receive bids and to begin construction.
